- Develop and regularly update school specific health and safety policy and advise employees on it.
- Have a critical incident/emergency plan.
- Ensure so far as reasonably practicable, the health, safety and wellbeing of staff, the health and safety of pupils in school and on off-site visits, and the health and safety of visitors to the school including volunteers involved in any school activity and contractors working on the school site.
- Assess the risk of all activities, both in school and off-site, introduce measures to manage the risks, and instruct employees about the risks and measures to control them.
- Ensure that staff are competent and trained in their responsibilities (including written records of training) and are actively involved in health and safety.
- Take reasonable steps to make sure that the buildings, equipment and materials are safe and do not put the health of users and visitors at risk.
